

Listed Building Consent Applications Referred To & Considered By SPAB In 2008

The list comprises a selection of the applications to local planning authorities to demolish or partly demolish a listed building which was wholly or predominantly built before 1714. These applications are referred to the Society under the Town and Country Planning Act 1990.

We also include a number of church cases. These may arrive as the result of notification by a council (usually a planning rather than a listed building application; citation by a Chancellor; or through having our attention drawn in some other way to church proposal. Under the Care of Cathedrals Measure the Society is formally notified of all applications of the Cathedrals Fabric Commission for England.

In view of local authority reorganisation in the 1990s which created some unitary authorities, cases have been placed in regional categories rather than under county and Wales headings.
