Brickwork Masterclasses

NEW

The SPAB has partnered with Historic Royal Palaces to run two NEW masterclass courses in brickwork. Both courses will take place in the majestic setting of Hampton Court Palace – a building of national significance within conservation. Emma Simpson, brickwork specialist with 20 years experience, will lead both courses and share in her knowledge of this rich traditional craft through theory and practical demonstration.

Places on both courses are strictly limited – booking early is advised to avoid disappointment. Each masterclass is designed as an individual course, or can be attended as a pair.

These masterclass courses are likely to meet CPD requirements for those professionally involved in historic buildings; including architects, surveyors, engineers, planners, builders, contractors and craftspeople.

Please note: delegates will need to be prepared with steel toe-capped footwear and suitable clothing. Other PPE will be provided on the day.

To book a place on this course complete a booking form, and return with payment to the SPAB.

Alternatively, book online at: www.spab.org.uk

Repair of Cut & Rubbed Chimneys

BMC1/12

26 April 2012

Time: 09.45 – 16.00

Venue: Hampton Court Palace, Surrey

Fee: £135 (includes lunch and refreshments)

The aim of this workshop is to understand how 'cut and rubbed' chimneys are built and repaired using the example of the conservation project at Hampton Court; Cardinal Wolsey's chimney stack. You will gain experience of practical techniques by direct hands-on work.

Examples of topics covered include:

- dismantling and re-building techniques;
- cutting and rubbing;
- production of mouldings; and
- traditional techniques.

Repair of Gauged Arches

BMC2/12

25 October 2012

FULLY BOOKED!

Time: 09.45 – 16.00

Venue: Hampton Court Palace, Surrey

Fee: £135 (includes lunch and refreshments)

The aim of this workshop is to examine issues of repair and conservation of gauged arches through specific case studies. You will gain experience of practical techniques by direct hands-on work.

Examples of topics covered include:

- overview of gauged brickwork and materials;
- examples of typical defects and reasons for failure;
- repairing gauged arches – issues and options;
- re-pointing; and
- cutting a new gauged arch.
