

SPAB Mills Section: Mills for Sale list – April 2018

Last updated: 26 April 2018

The Mills Section publishes a list of mills for sale as a service to its members. An aim of the list is to help buildings in need to find sympathetic owners, and we encourage buyers to contact the Section for advice about maintenance or repair of their mill. We hope that purchasers will respect the history of each building, and be guided by the SPAB and Mills Section Philosophy of Repair.

Compiled by Mark Berry (mark@windmillworld.com) on behalf of the SPAB Mills Section. This list is not comprehensive and the Section takes no responsibility for any transaction that may result.
